**LETTER OF WARNING**

Dear Ms. Dunlap:

RE: McDonald Tank and Equipment Company, Inc.  
Great Bend, KS  
Air ID No. 20-009-00070

On December 8, 2015, a representative of the Environmental Protection Agency (EPA) inspected your facility. The purpose of the inspection was to assess the facility's compliance with the Clean Air Act and your operating permit, pursuant to Section 114 of the Clean Air Act, 42 U.S.C. §7401 et seq. Please find enclosed a copy of the inspection report.

At the time of the inspection the EPA inspector noted inaccuracies with your HAP emission calculations. The emission calculations have since been corrected.

EPA plans no further action at this time. Please note that your correction of the violation does not prevent EPA from pursuing appropriate enforcement action, including penalties, for violations discovered as a result of the inspection. The penalties sought within such an enforcement action can be up to \$37,500 per violation per day of non-compliance.

Please direct all questions concerning this letter to me at (913) 551-5014 or [johnson.karent@epa.gov](mailto:johnson.karent@epa.gov).

Sincerely,

Karen T Johnson  
Air Compliance Officer
